

Once your new users are added to the system, they will receive an email letting them set their password.

To learn more, please visit the [User Management Dashboard](#) page.

Download and Install the CSI Application

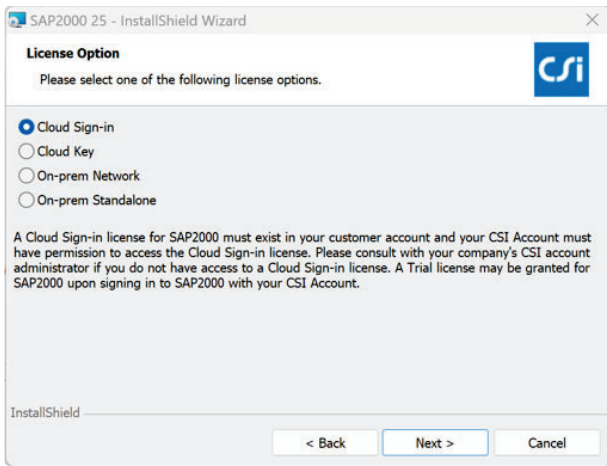

Sign into the CSI Customer Center (<https://account.csiamerica.com>) and navigate to Manage Software → Downloads.

Click "Download Installation" for the software you wish to install.

Run the downloaded installer.

During the installation, be sure the default option "Cloud Sign-in" is selected in the License Option dialog box.

Instructions to install the software using command line can be found here: [Command Line Installation](#)

Change the License Mode of Existing Installations

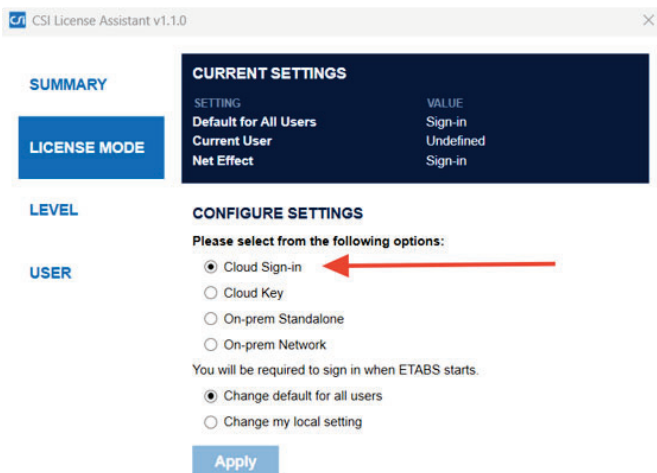

CSI License Assistant

If you already have the CSI Application installed, then you only need to change the license mode of the application to use the Cloud Sign-in License.

You can find the CSI License Assistant by searching for “CSILicenseAssistant” in the Windows search, or by navigating to it directly from the the File Explorer at:

C:\Program Files\Computers and Structures\[PRODUCT]\CSiLicensing\CSiLicenseAssistant.exe.

Upon executing, select the License Mode tab from the menu and then select “Cloud Sign-in” and click Apply. The CSI Application is now set to use the Cloud Sign-in License when run.

Each installed CSI Application has its own CSI License Assistant.

Command Line Interface

This same functionality can be achieved via Command Line Interface by running the CSILicenseAssistant.exe and using the LicenseMode parameter: CSILicenseAssistant.exe /licenseMode {LicenseMode}

where parameter values are specified as:

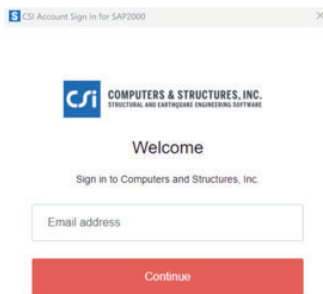

LicenseMode - sets the desired license mode for the software to use:

- Login - Cloud Sign-in Licensing
- Cloud - Cloud Key Licensing
- Standalone - Standalone Licensing
- Network - Network Licensing

Run the CSI Application

Run the application you installed from the Windows Start menu or desktop.

Upon startup, enter your email address and click "Continue". (If your company has setup Federated Identity, you will be redirected to your company's identity platform to complete authentication.)

If you are interested in federating your company's identity platform (IdP) with CSI's IdP to allow your employees to sign in using your corporate credentials, please email identity@csi-america.com.

Upon successful authentication, the application will try to get a license. If a license is available, the application will start and you will see your name in the top right corner of the application user interface. Navigate to Help → License Information to see information in the dialog box shown below.
